Future Learn

Issued 25th September 2026. futurelearn.com/certificates/to5c2up

Certificate of Achievement

Bandhan Singhal

has completed the following course:

ARTIFICIAL INTELLIGENCE FOR EVERYONE
UNIVERSITI MALAYA

This is an introductory course to Artificial Intelligence (AI) which provides an overview of AI concepts and techniques.

8 weeks, 2 hours per week

Prof. Dr. Hasniza Zaman Huri
Deputy Vice-Chancellor (Academic & International)
Universiti Malaya

Assoc. Prof. Dr. Norisma Idris
Associate Professor, Faculty of Computer Science and Information Technology
Universiti Malaya

UNIVERSITI MALAYA

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit futurelearn.com/proof-of-learning/certificate-of-achievement.

This certificate represents proof of learning. It is not a formal qualification, degree, or part of a degree.

TRANSCRIPT

UNIVERSITI MALAYA

Bandhan Singhal

has completed the following course:

ARTIFICIAL INTELLIGENCE FOR EVERYONE
UNIVERSITI MALAYA

The course covers the basic concepts of AI, key terminologies, and various domains and applications of AI. It also introduces fundamental concepts of AI processes and techniques, such as Machine Learning, Natural Language Processing, and Computer Vision. This course does not require programming skills or an IT background, making it well-suited for learners from diverse backgrounds.

STUDY REQUIREMENT
8 weeks, 2 hours per week

LEARNING OUTCOMES
- Describe different AI techniques and their underlying principles.
- Articulate basic applications of AI techniques in various domains.
- Analyse the applications of AI techniques with respect to their ethical and governance considerations.

SYLLABUS
This course provides a comprehensive introduction to AI, covering the fundamentals of AI, machine learning, and deep learning techniques. It explores advanced fields like Generative AI and Large Language Models (LLMs), along with key techniques such as Natural Language Processing and Computer Vision for pattern recognition. Ethical considerations in AI are addressed, ensuring learners understand its societal and industrial impacts. Furthermore, the course highlights how AI is transforming industries and influencing society at large, offering a well-rounded foundation for anyone interested in AI.
